# Project Overview

- Select dropdown styling improvements
  - Improve grouping & disabled states
  - Larger Windows touch options
  - Web developer option styling
- Select dropdown search functionality
  - For longer lists (40+ options)
  - Case insensitive inner search
- Update single-process dropdown implementation to follow the multi-process (e10s) architecture

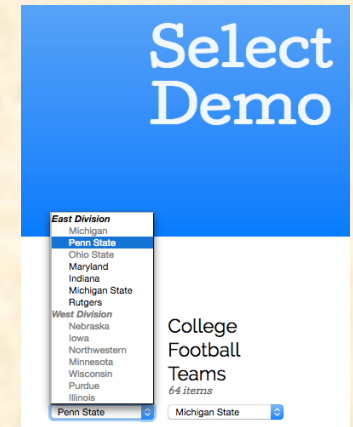

# System Architecture

# Backend Changes

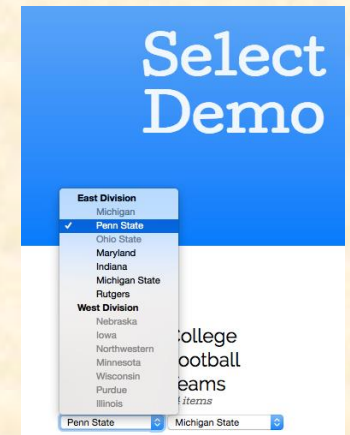

Runtime Preference turned off: Results in single-process dropdown implementation while running in single-process mode

Search:	dom.select_popup_in_parent.enabled			
Preference Name	Status	Type	Value	
dom.select_popup_in_parent.enabled	default	boolean	false

Before – Orange/Red blocks are failed tests

After – Green blocks are passed tests

# What's left to do?

- Web Developer Styling
  - Fix bug with group headers
- Search
  - Modify remaining tests to account for addition of search functionality
  - Make changes based on Mozilla Review responses and feedback from Nightly deployment
- Backend
  - Create more tests to account for backend changes
- Stretch Goal: Dropdown opening animations
