Meijer
Mobile Location-Based Product Promotion

Insert your project description here. Target your writing for the general public. Begin with the motivation for your project. Do not begin with phrases like "Our project was to make…" or "For our project we made…". See the example that Dr. D. wrote for Spartan Basketball Player Timer.

Use a "newspaper" style of writing. Sentences and paragraphs should tend to be short and snappy. It's even okay to have a paragraph with only one sentence, just not too many of them. Write everything in the present tense.

If space permits, you can reference your artwork at the right.

Use 11-point, Times New Roman font. Use single space lines. Justify both margins. Use 6 pts of space between paragraphs; do not use blank lines between paragraphs. Use one space between sentences within a paragraph.

The size of this textbox is 4.1" (wide) by 5.25" (high). Do not change the size of the textbox. Your text must fit exactly within this textbox with these dimensions. This means that your text should fill the entire textbox but no more.

The last line of each paragraph should be at least one-half to three-quarters of the width of the textbox. Do not end a paragraph with a line containing one or two words.

After you have a draft, make the template available to your clients. Get feedback from them before you sub.

The last two lines or so should include technical information about your project. See previous Design Day booklets and Spartan Basketball Player Timer for examples.

Insert at least one piece of artwork here.

Artwork should be a screen shot or screen shots of your software.

Artwork must be large enough to be viewable.

If artwork is a web app, include a browser frame.

If artwork is a mobile app, include mobile device frame.

If artwork is a native app, include native window frame.

Artwork must fit in this textbox.

This textbox is 3.75" wide.

You should fill this space as much as possible.

You may increase the height of the textbox if there is sufficient space above your corporate logo (below) without having to shrink the size of your corporate logo.

Team's Job

- READ Instructions Carefully
- Check Everything
- MUST Use Windows Version of Word
- READ Instructions Carefully
- Write Project Description
- READ Instructions Carefully
- Provide Artwork
- READ Instructions Carefully
- Check Everything 100 Times
- READ Instructions Carefully

Project Description

- READ Instructions Carefully
- Newspaper / Magazine Style
- Target General Public
- Do NOT Start "Our Project is…"
- Use present tense throughout.
- Write as though your project is complete.
- Fill the entire textbox.
- At Most Two or Three Lines of Technical Jargon
- See Examples
  - The Capstone Experience Booklets
  - Previous Design Day Booklets (Design Day > Booklet)
  - MSU Men's Basketball

Artwork

- READ Instructions Carefully
- Screenshot(s) of Working Software
- Fill up the entire whitespace.
- Can Overlap
- Include "Framing"
  - Browser
  - iPhone, iPad
  - Android
- Add Border
  - If Blends Into White Background
  - Create Single PNG Using PowerPoint
  - Read Instructions
- Very High Resolution
- Preserve Aspect Ratios
- Crop to Eliminate Transparent "Borders"
- Use paint.net
- See Examples
  - The Capstone Experience Booklets
  - Previous Design Day Booklets (Design Day > Booklet)
  - MSU Men's Basketball

Submission

- READ Instructions Carefully
- Assets Folder
  - Name: team-urban-science-design-day-booklet-page
  - Contents
    - team-urban-science-design-day-booklet-page.docx
    - team-urban-science-artwork-1.png (Very High Resolution)
    - team-urban-science-artwork-2.png (Very High Resolution)
    - team-urban-science-artwork-N.png (Very High Resolution)
- Email
  - Subject: Team Urban Science Design Day Booklet Project Page
  - Body
    - Not Blank
    - Something Professional
  - Attachment
    - Zipped Assets Folder
    - team-urban-science-design-day-booklet-page.zip
- Due 4:00 a.m., Friday, October 13. (Think Thursday night.)

Meijer
Mobile Location-Based Product Promotion

With over 200 stores, Meijer serves the Midwest as one of the largest supermarket chains in the country. Having created the first modern supercenter in 1963, Meijer is known for customer service and continual innovation.

Meijer is revolutionizing today's shopping experience in many ways including the way that product promotions are delivered to its customers.

Our Mobile Location-Based Product Promotion system features an iPhone app that shows product promotions based on a customer's location within any Meijer store. For example, when walking down the cereal aisle, a customer may be alerted that their favorite cereal is on sale.

Our iPhone app determines a customer's location in a store using strategically placed devices called iBeacons, which communicate with iPhones using Bluetooth. When a customer walks within range of an iBeacon, a notification appears on their phone showing all nearby product promotions and sales.

In addition to our iPhone app, our system includes a web app with which Meijer associates create, edit and delete iBeacon product promotions and sales.

Our web app also displays customer analytics enabling Meijer and its partners to evaluate the impact of location-based promotions on buying decisions.

Our iPhone app is written in C# while our administrator interface is built with HTML, CSS and AngularJS. Microsoft Azure hosts the administrator website and database which uses SQL Server 2012.
