Department of Computer Science and Engineering
Michigan State University

Fall 2017

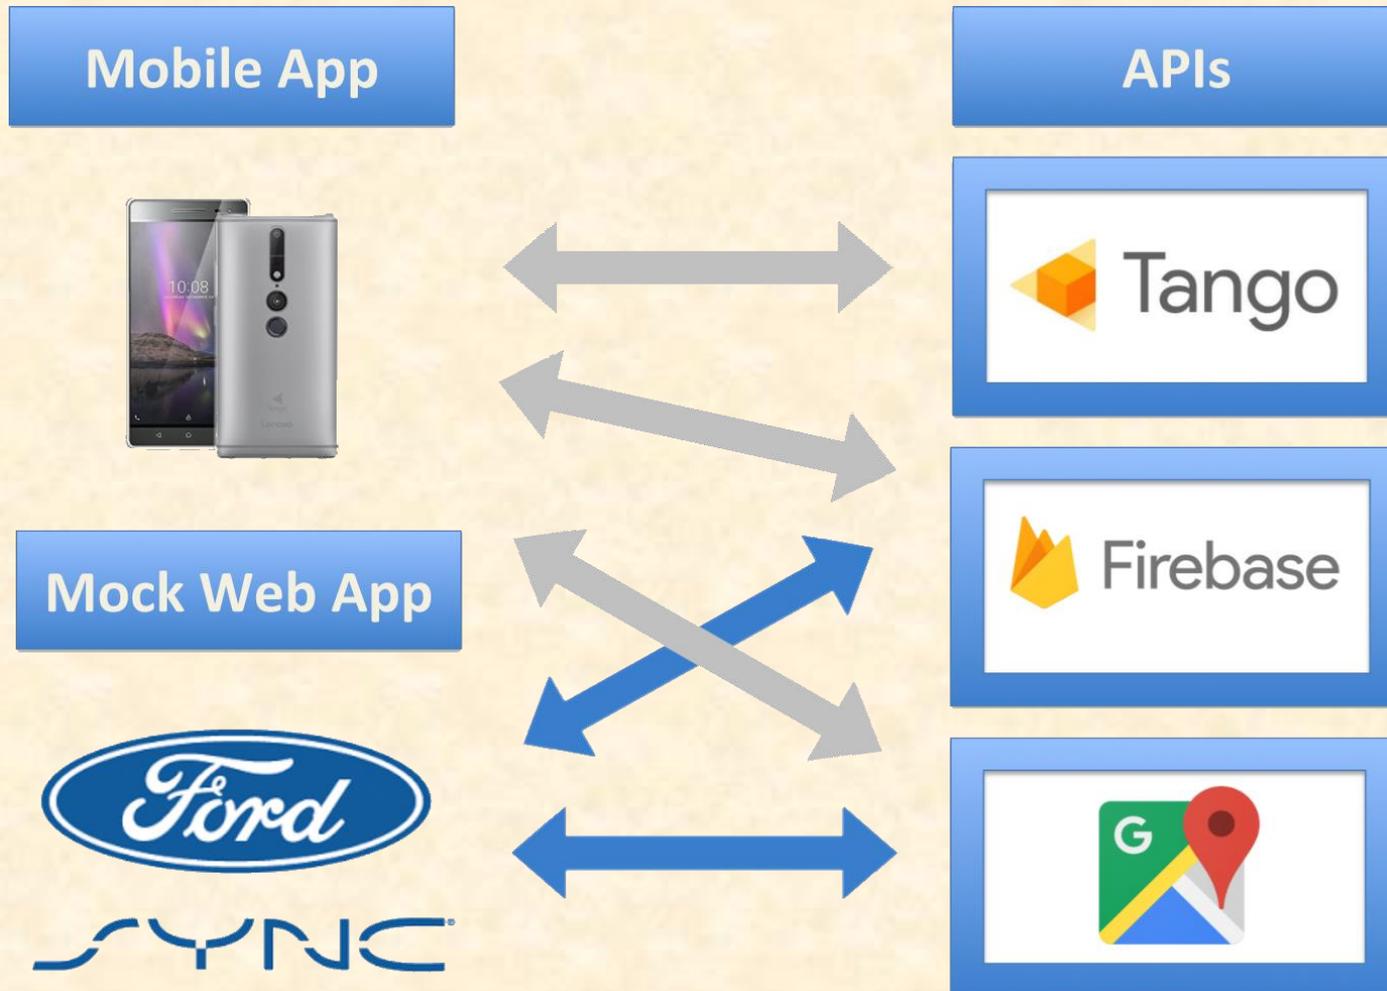

*From Students...
...to Professionals*

Project Overview

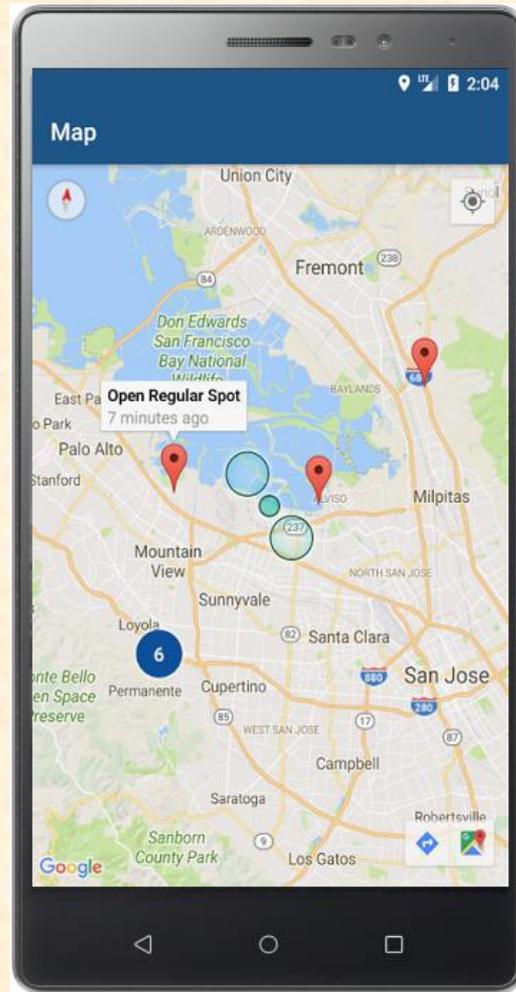

- Mobile application to help drivers find parking in urban areas
- Shows nearby parking spots that were reported by other users
- Place virtual Ford vehicles into the garages of potential Ford buyers

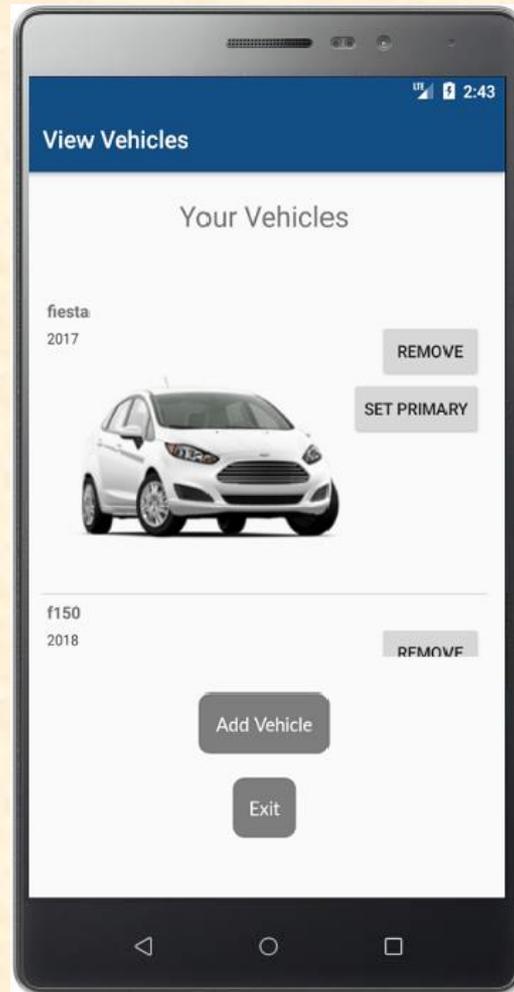

System Architecture

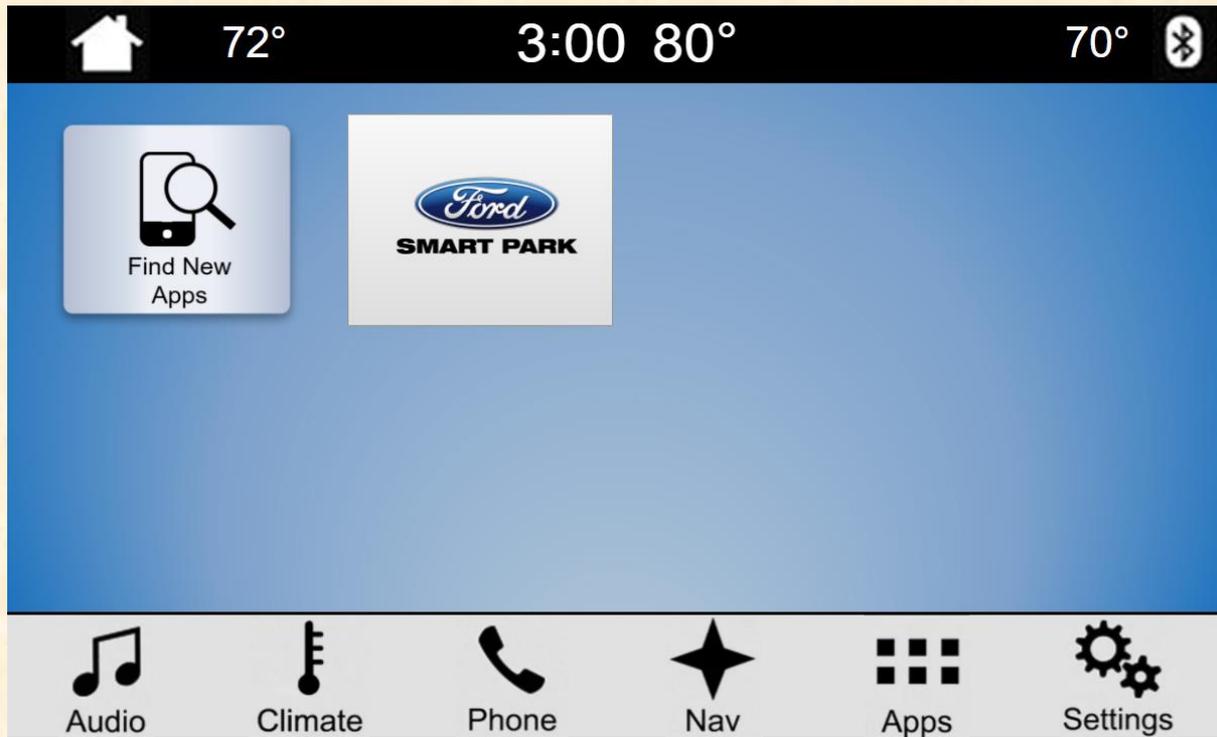

Find Parking Spots

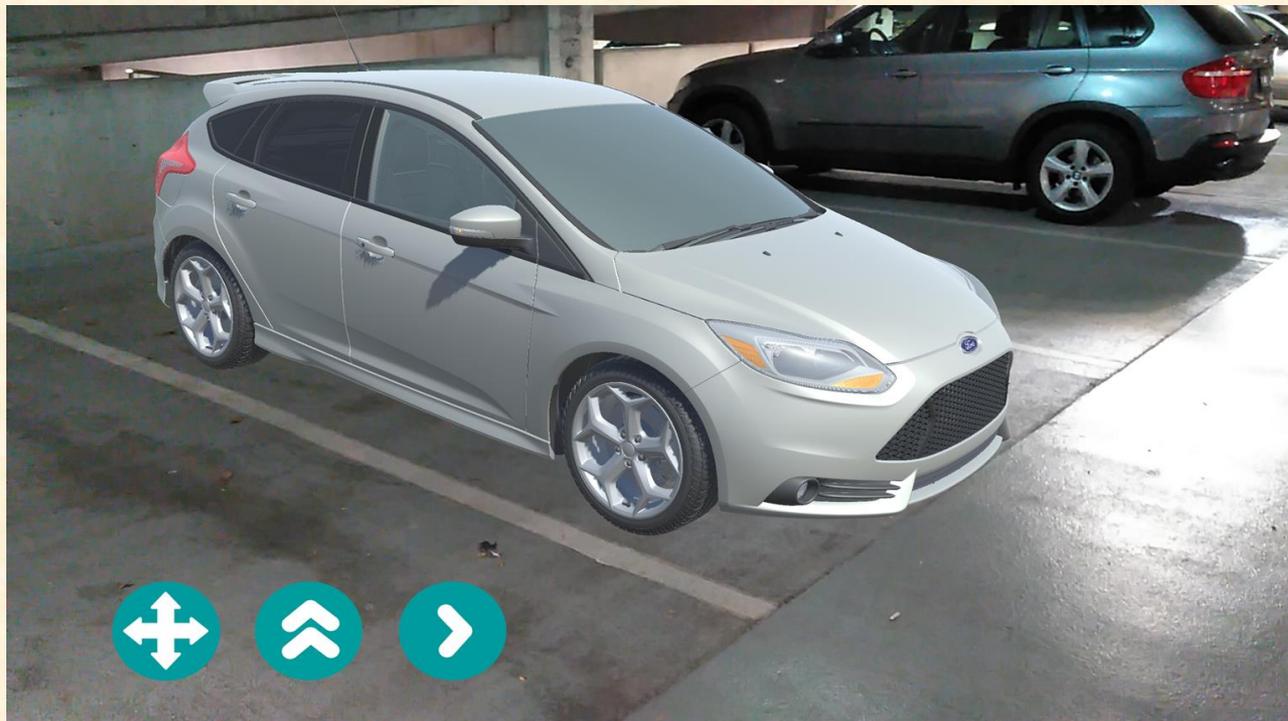

View Vehicles

Sync 3 Web

AR Parking

What's left to do?

- Improve User Interface
- Decrease loading time for 3D models
- Work with Ford to retrieve additional 3D Ford vehicle models
