# Project Overview

---

- Expand the Firefox theming API to allow for more areas of customization
- Update the current native Firefox Dark Theme to reflect API additions
- Improve compatibility for Google Chrome theme properties in Firefox

# System Architecture

# Address Bar Auto-Complete Styling

# Popup Styling

# Find Bar and Menu Styling

# Sidebar Styling

# In-product Page Styling

# What's left to do?

---

- Project Video
- Expand testing suite for maintainability of codebase
- Fix minor formatting bugs found in different operating systems
- Continue code review process to land implemented features into the Nightly build of Firefox
