 - Load in Outputs
 - Test each plugin independently

System Architecture

Screen Shot 1: Updated Imgur Options

The screenshot displays two overlapping dialog boxes from the Imgur application. The background dialog is titled "Imgur Output Options" and contains the following sections:

- Imgur Account:** Shows "Logged in as: CSE498TechSmith2018" and a checkbox for "Post content anonymously".
- Imgur Post:** Includes input fields for "Title:" and "Description:", and a dropdown menu for "Album:" currently set to "< Post as Image >".
- Clipboard:** A list of radio button options: "Image link", "Direct link" (which is selected), "Markdown link", "HTML embed code", "BBCode", and "BBCode (linked)".

At the bottom of the "Imgur Output Options" dialog are "Save" and "Cancel" buttons.

The foreground dialog is titled "Create Imgur Album" and contains:

- Title:** A text input field containing "Beta Imgur Album".
- Description:** A text area containing "Album to store Imgur Beta media".
- Privacy:** A dropdown menu set to "Public".

At the bottom of the "Create Imgur Album" dialog are "Confirm" and "Cancel" buttons.

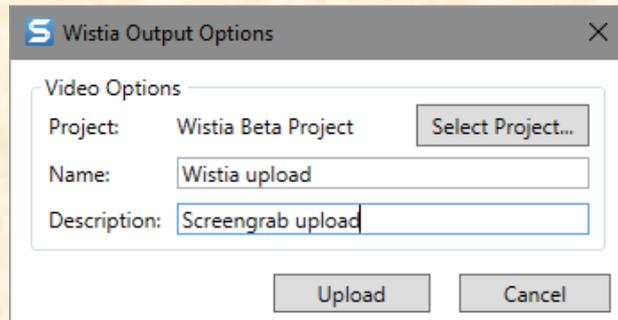

Screen Shot 2: Updated TechSmith Video Review Options

The screenshot displays two overlapping dialog boxes from the TechSmith software. The foreground dialog, titled "TechSmith Video Review Login", contains a "TechSmith Account" section with "Email:" and "Password:" input fields, and "Login" and "Cancel" buttons. The background dialog, titled "Output Options", shows a "TechSmith Video Review" section with a "Title:" field containing "Beta TechSmith Video Review Output", a "Review-by Date:" field with "4/3/2018" and a calendar icon, and a "Reviewer Prompt:" text area. It also includes "Sign Out...", "Upload", and "Cancel" buttons.
