Admin Page

The screenshot shows a web browser window titled "Admin Portal" with the URL "localhost:62127/admin". The page features the "SPECTRUM HEALTH" logo at the top center and a "log out" button in the top right corner. Below the logo, the text "VR Administrator Access" is displayed. A large purple rectangular box highlights a central area containing a smaller white square, representing a VR environment. Below this box, the following coordinates are listed: "top left:166,26", "bottom right:222,72", "top left:222,26", and "bottom left:166,72".

Admin Page

The screenshot shows the 'VR Administrator Access' interface. At the top right is a 'log out' button. The main content area features a large purple-bordered rectangle representing a hit box. Inside this rectangle is a smaller white square, which is pointed to by an arrow from the text 'Hit Box Target'. Below the hit box, there are four arrows pointing to coordinate labels: 'top left: 166,26', 'bottom right: 222,72', 'top left: 222,26', and 'bottom left: 166,72'. Below these coordinates is a file upload section with the text 'Upload one or more files using this form:'. It includes a 'Browse...' button, the filename 'PatientRoom.png', and an 'Upload' button. To the right of the upload section are two dropdown menus: 'Building' with 'Main Hospital' selected, and 'Room' with 'room 292' selected. Below the upload section is a form for adding a hitbox to an image. It has an 'Add Hitbox to image' button, a 'Selection Title' field with 'Electric Monitor' entered, and a 'Subtext' field with 'Monitors heart rate for the patient, Displays vital information' entered. An arrow from the text 'Labeling and Tagging information' points to the 'Add Hitbox to image' button and the 'Selection Title' field. Another arrow from the same text points to the 'Building' and 'Room' dropdown menus.

What's left to do?

- More accurate hitbox creation
- Refine website and mobile views
- Format uploaded content for use on public site
- Functional preview for selected image upload
- Link login functionality
- Merge Git code
