Fall 2019

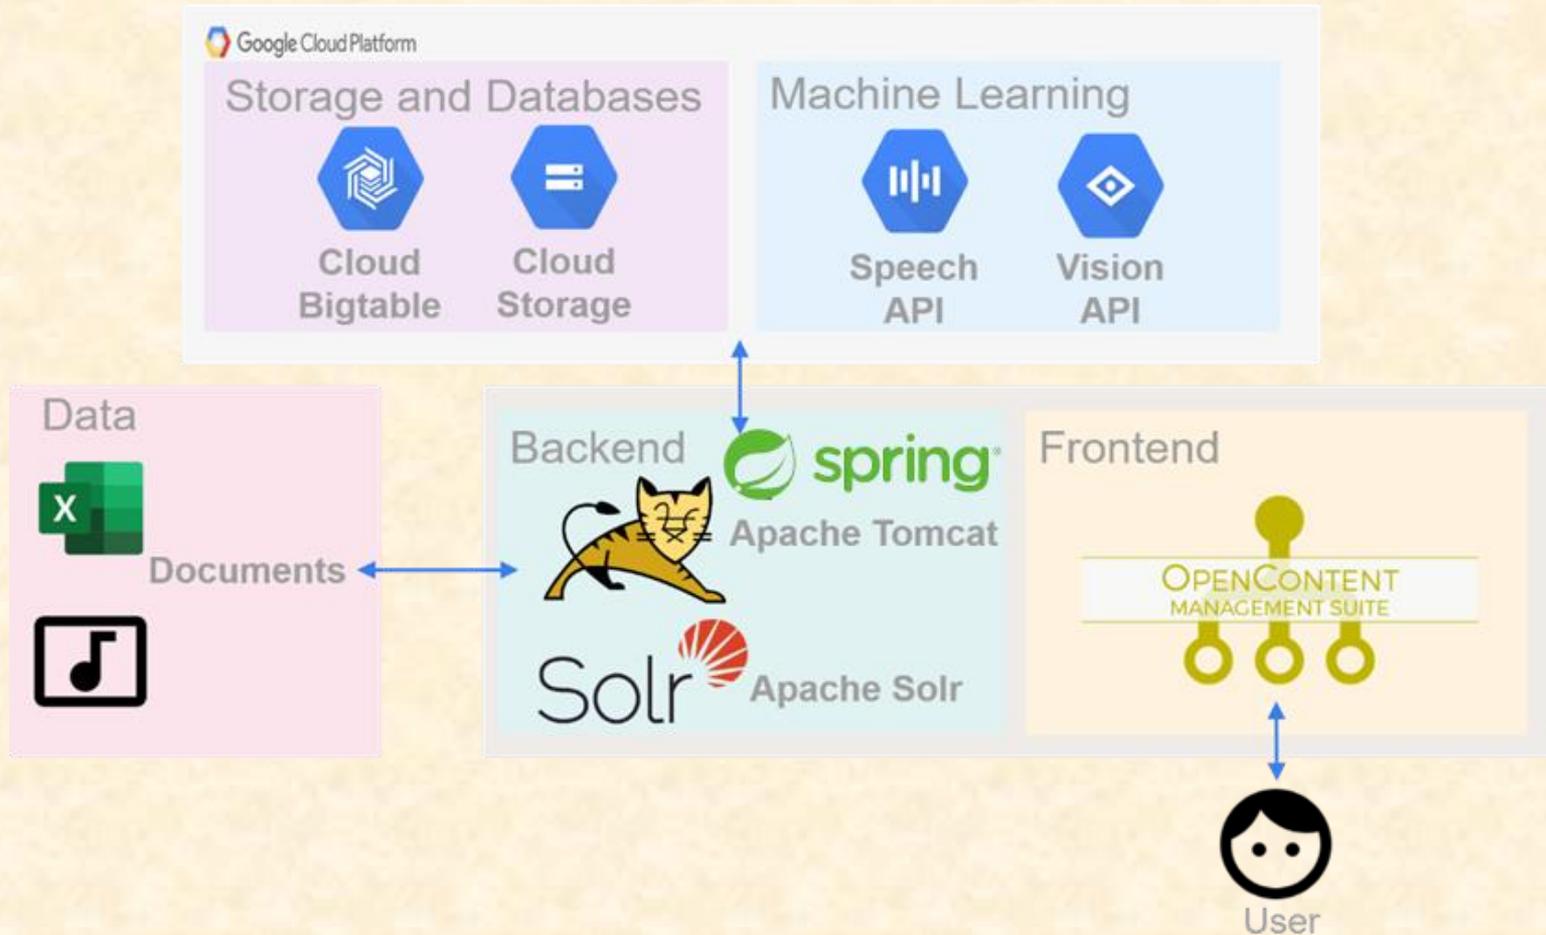

*From Students...
...to Professionals*

Project Overview

- Technology Services Group's (TSG) software currently cannot support the Google Cloud Platform (GCP)
- Our project:
 - Research and development with GCP
 - Introduce speech-to-text
 - Implement image search by keywords

Speech-to-Text Transcription

The screenshot displays the OpenContent Management Suite interface. The top navigation bar includes 'Search', 'Collections', 'Dashboard', 'Create New Folder', 'Add Document(s)', and 'Create Placeholder Document(s)'. The user is logged in as 'admin admin'. The main content area is split into two panels. The left panel, titled 'James-Video-1', shows a video player with a close button (a red square icon) highlighted by a red box. The video content shows a close-up of a car's front end, including the headlight and hood. The right panel, also titled 'James-Video-1', displays a transcription of the video's audio content. The transcription is as follows:

00:00 | I am with mason car insurance
00:02 | agency in Georgia how may I
00:03 | help you today I've been
00:06 | dealing with this issue since
00:07 | last June and I really need
00:09 | your help let me get all the
00:11 | facts down for you so I was
00:13 | in a car accident and what
00:15 | happened was a car pulled out
00:16 | of his driveway and to avoid
00:18 | hitting that oncoming car I
00:20 | swerved and sideswiped
00:21 | another car and my car got

Keywords Generated Using Vision AI

The screenshot displays a web browser window with the URL `localhost:8080/ocms/Stage/controlleddocs/ac47b164-9c79-4ad7-bc4f-e5c85e909d02-0.1%7C7cb0fea5-8451-45b2-9b52-ccbac628563d-0.1`. The page title is "OpenContent Management Suite". A modal dialog titled "Add Image Keywords" is open, showing a green success message: "Keywords successfully added: Land vehicle,Vehicle,Car,Full-size car,Pink,Mid-size car,Crash,Sedan".

Below the modal, the image metadata is visible:

Name	jacob-crash
Version Label	0.1
Status	Draft

The "Actions" menu includes:

- View Properties
- Create New Folder
- Add Documents
- Delete Folder

The main image shows a pink sedan with license plate "FED884" involved in a collision with a dark red sedan. The pink car's front end is crumpled, and its hood is bent upwards. A white car is visible in the background, and a person in a high-visibility vest is partially visible on the left.

Search Images by Keyword

The screenshot shows the OpenContent Management Suite search interface. The search results table is as follows:

Document Number	Version Label	Status	Approved Date	Effective Date
IMG_9076	0.1	Draft		
IMG_9077	0.1	Draft		
IMG_9078	0.1	Draft		
IMG_9079	0.1	Draft		

The search criteria are: Full-Text Search: car crash. The search results are linked to a photograph of a silver car with a damaged hood, illustrating the search results for the keyword "car crash".

What's Left to Do?

- Write documentation
- Clean up code
