Department of Computer Science and Engineering  
Michigan State University

Spring 2013

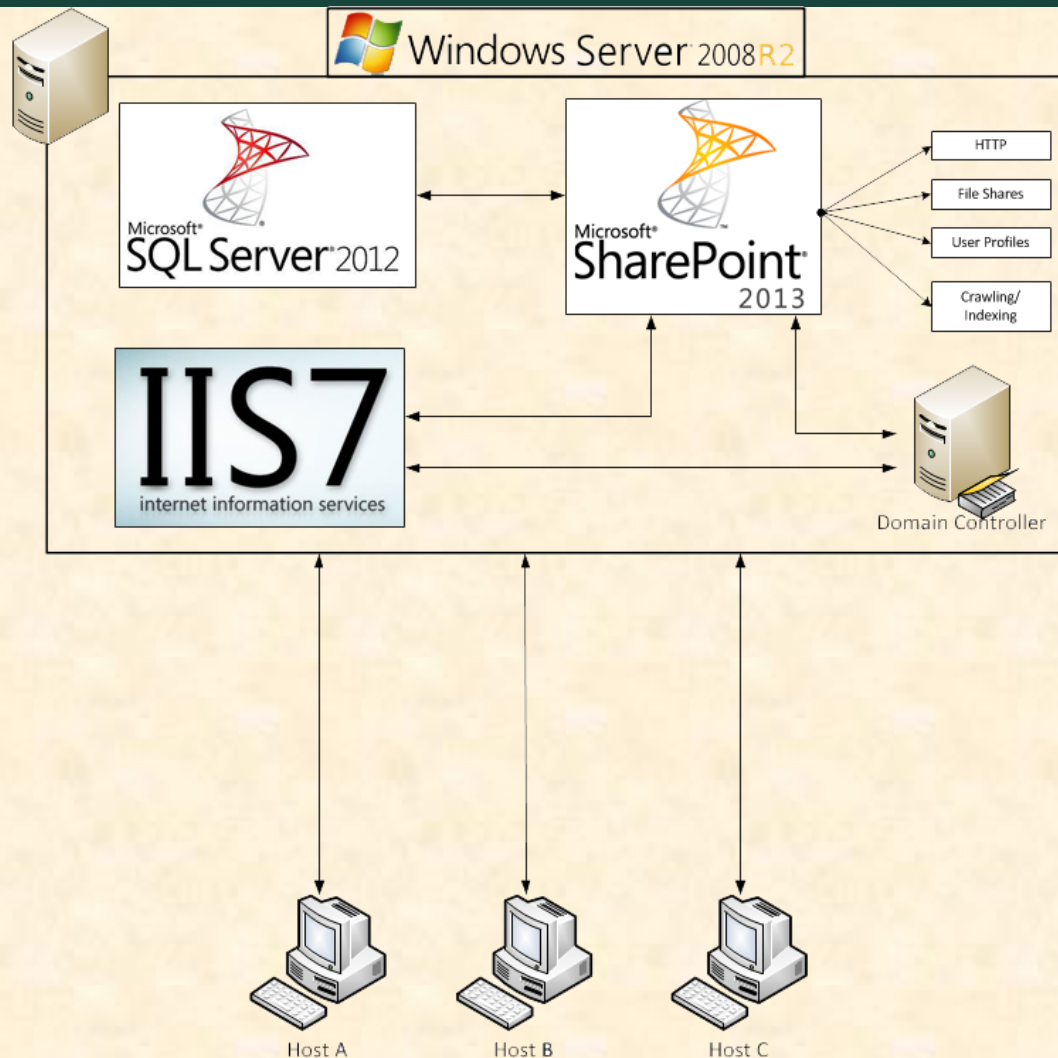

*From Students...*  
*...to Professionals*

# Project Overview

---

- Dow wants to completely recreate their Intranet Portal from scratch for internal use among Dow employees
- This new Intranet Portal must be built with SharePoint 2013
- Needs to have a similar layout to old Dow Intranet to ensure a smooth transition

# Home Page #2

The screenshot displays a SharePoint interface. At the top, a blue navigation bar contains the text 'SharePoint' on the left and 'Newsfeed', 'SkyDrive', and 'Sites' on the right. To the right of these are user controls: 'mill2121', a gear icon, and a question mark icon. Below the navigation bar is a light gray bar with 'SHARE', 'FOLLOW', and a document icon. The main content area is white. On the right side, there is a section titled 'DowSurvey'. Below the title are three links: 'Respond to this Survey' (with a document icon), 'Actions', and 'Settings'. Below these links is a table with survey details:

Survey Name:	DowSurvey
Survey Description:	
Time Created:	2/12/2013 6:22 PM
Number of Responses:	1

Below the table are two checkboxes: 'Show a graphical summary of responses' and 'Show all responses'. At the bottom of the page, there is a red horizontal line. Below the line, on the left, are three links with right-pointing arrows: 'Michigan State University', 'MSU - Computer Science', and 'MSU - College of Engineering'. In the center, there are three links with right-pointing arrows: 'Google', 'Yahoo!', and 'Bing'. On the right, there are three links with right-pointing arrows: 'Wired.com', 'Slashdot', and 'ThinkGeek'. At the very bottom, centered, is the following text:

IM Certified Site

# What's left to do?

---

- Navigation
- Convert web parts to an easily exportable format
  - Visual Studio Solution
  - Create manifest
- Create sub-sites
- Tweaking visual layout (CSS)
