Department of Computer Science and Engineering  
Michigan State University

Fall 2017

*From Students...  
...to Professionals*

# Project Overview

- Symptom Checker
  - Users describe how they are feeling
    - “I have been coughing a lot lately.”
  - User input is matched with chief complaints or synonyms of those complaints and is presented a ranked list of conditions to pick from
  - When a user taps on a condition that sounds similar to what they’re experiencing, they are recommended a service
    - E.g. MedNow, Emergency Department, Urgent Care

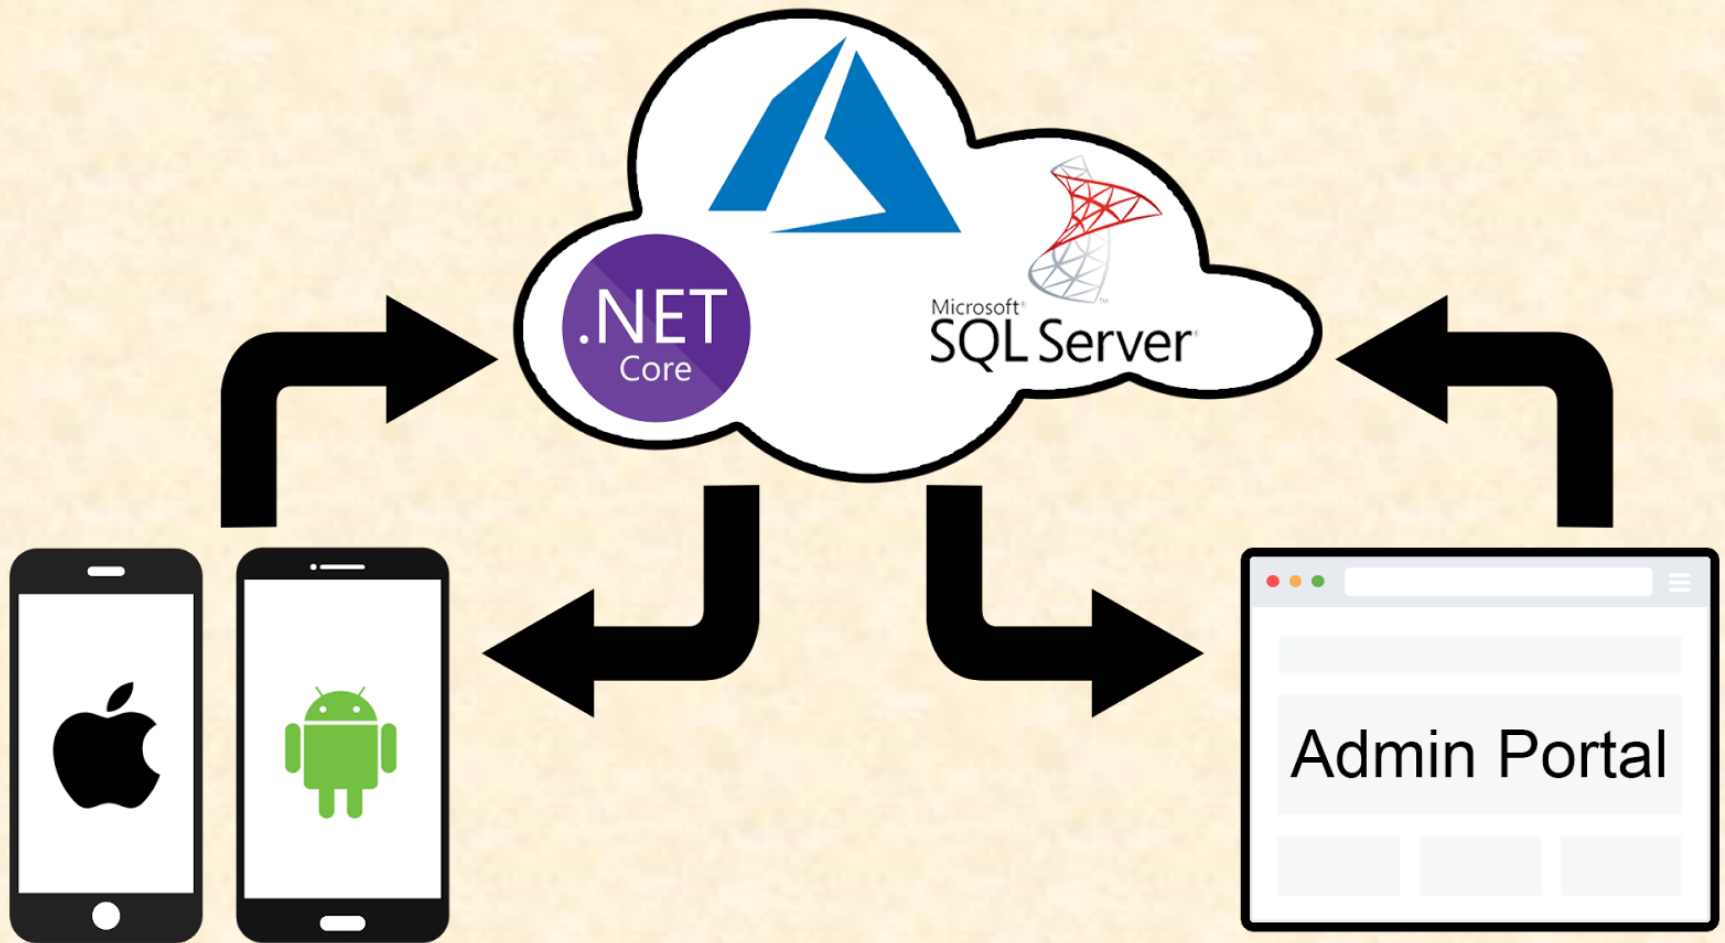

# Project Overview

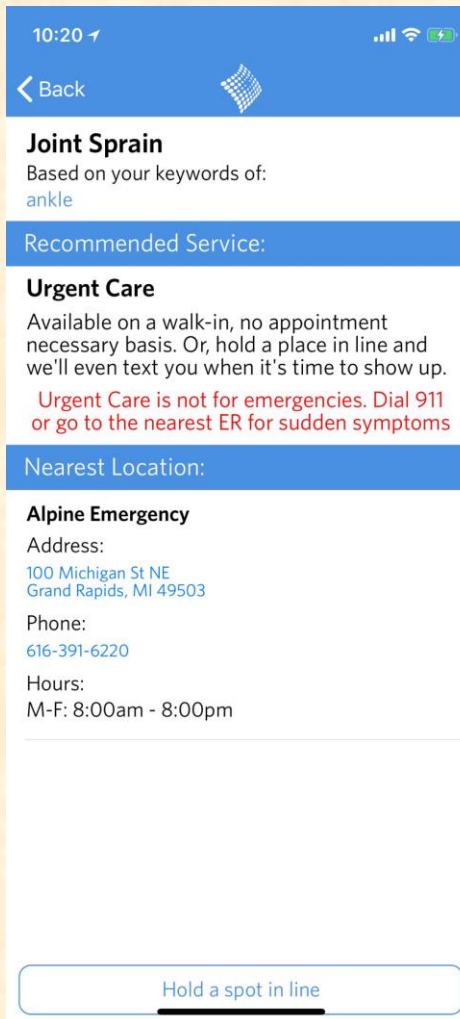

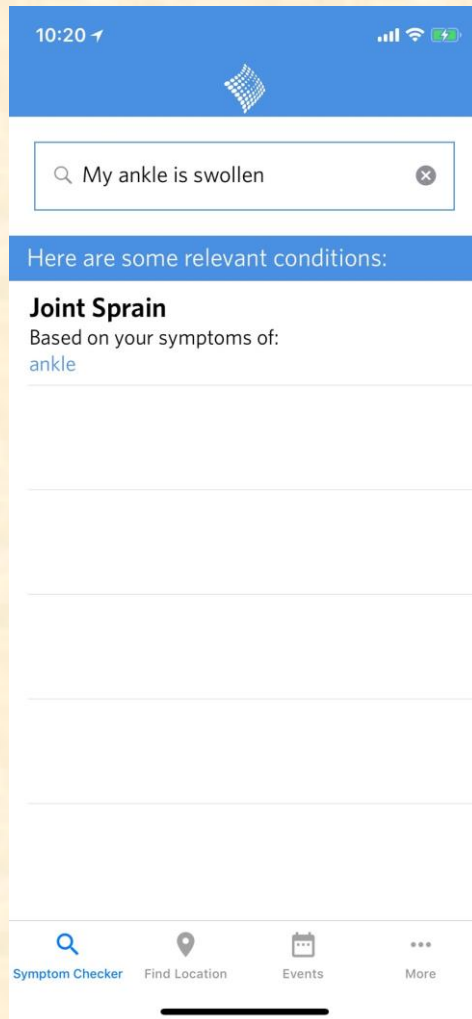

- Home screen
  - Provides quick access to frequently used features
  - Allows users to quickly learn more about Spectrum Health
- Urgent Care appointment scheduling
  - Enables users to schedule appointments once they're recommended an Urgent Care visit
- Pay My Bill, Careers, Contact Us
  - Users can quickly access the web portals for these Spectrum Health services

# What's left to do?

---

- User testing
- Documentation
- Remove any/all IDE warnings
- Clean code and prepare to turn in
- Coordinate design specifications with Grand Valley State University team
