Department of Computer Science and Engineering
Michigan State University
Spring 2020

Project Overview

- Give companies insight into the messages passing through their servers.
- Analyze and process emails
 - Allow companies to create custom policies
 - Tag messages that do not comply with firm policies
 - Highlight data that does not comply
- Maintain compliance with regulations
 - Privacy: GDPR, CCPA
 - Financial: SEC, ESMA

Email View

What's left to do?

- Update documentation
- Fix a couple bugs with James server & maillet
- Fix REGEX to ignore surrounding characters
- Automatically refresh auth token for services (e.g., James, Kafka)
- Consolidate front end (styling, logic, etc.)
- Video
