Project Overview

- Web application for employee recognition
- Send and receive customized messages
- Accrue balance of credits for rewards
- Manage user statistics

System Architecture

Ally Kudos Dashboard

The screenshot shows a web browser window with the URL `localhost:3000/dashboard`. The page features a header with the "ally kudos" logo, a user profile for Sara, and a "LOG OUT" button. A notification bell icon is also present. Below the header, there are two main sections: "Your Kudos Balance" showing 3600 and "Spread some joy by appreciating someone" with a "SEND KUDOS" button. The "Statistics" section contains a bar chart comparing "Kudos Received" (green) and "Kudos Sent" (red). The "Kudos Usage" section shows a horizontal bar chart for "Kudos Allocated" (green) and "Kudos Earned" (red). On the right side, there is a list of "RECEIVED APPRECIATIONS" and "SENT APPRECIATIONS". The "RECEIVED APPRECIATIONS" list includes three entries: one from Sara to Amanda (+50), one from Sara to Chuck (+100), and one from Sara to Suzy (+225). Each entry includes a cartoon illustration and a message of appreciation.

ally kudos LOG OUT

Hi Sara, Welcome Back!
This is your Kudos Dashboard

Your Kudos Balance
3600

Spread some joy by appreciating someone

Kudos Earned

RECEIVED APPRECIATIONS **SENT APPRECIATIONS**

From: Sara
To: Amanda +50

Amanda, thanks for helping me on that project last friday! Appreciate it!

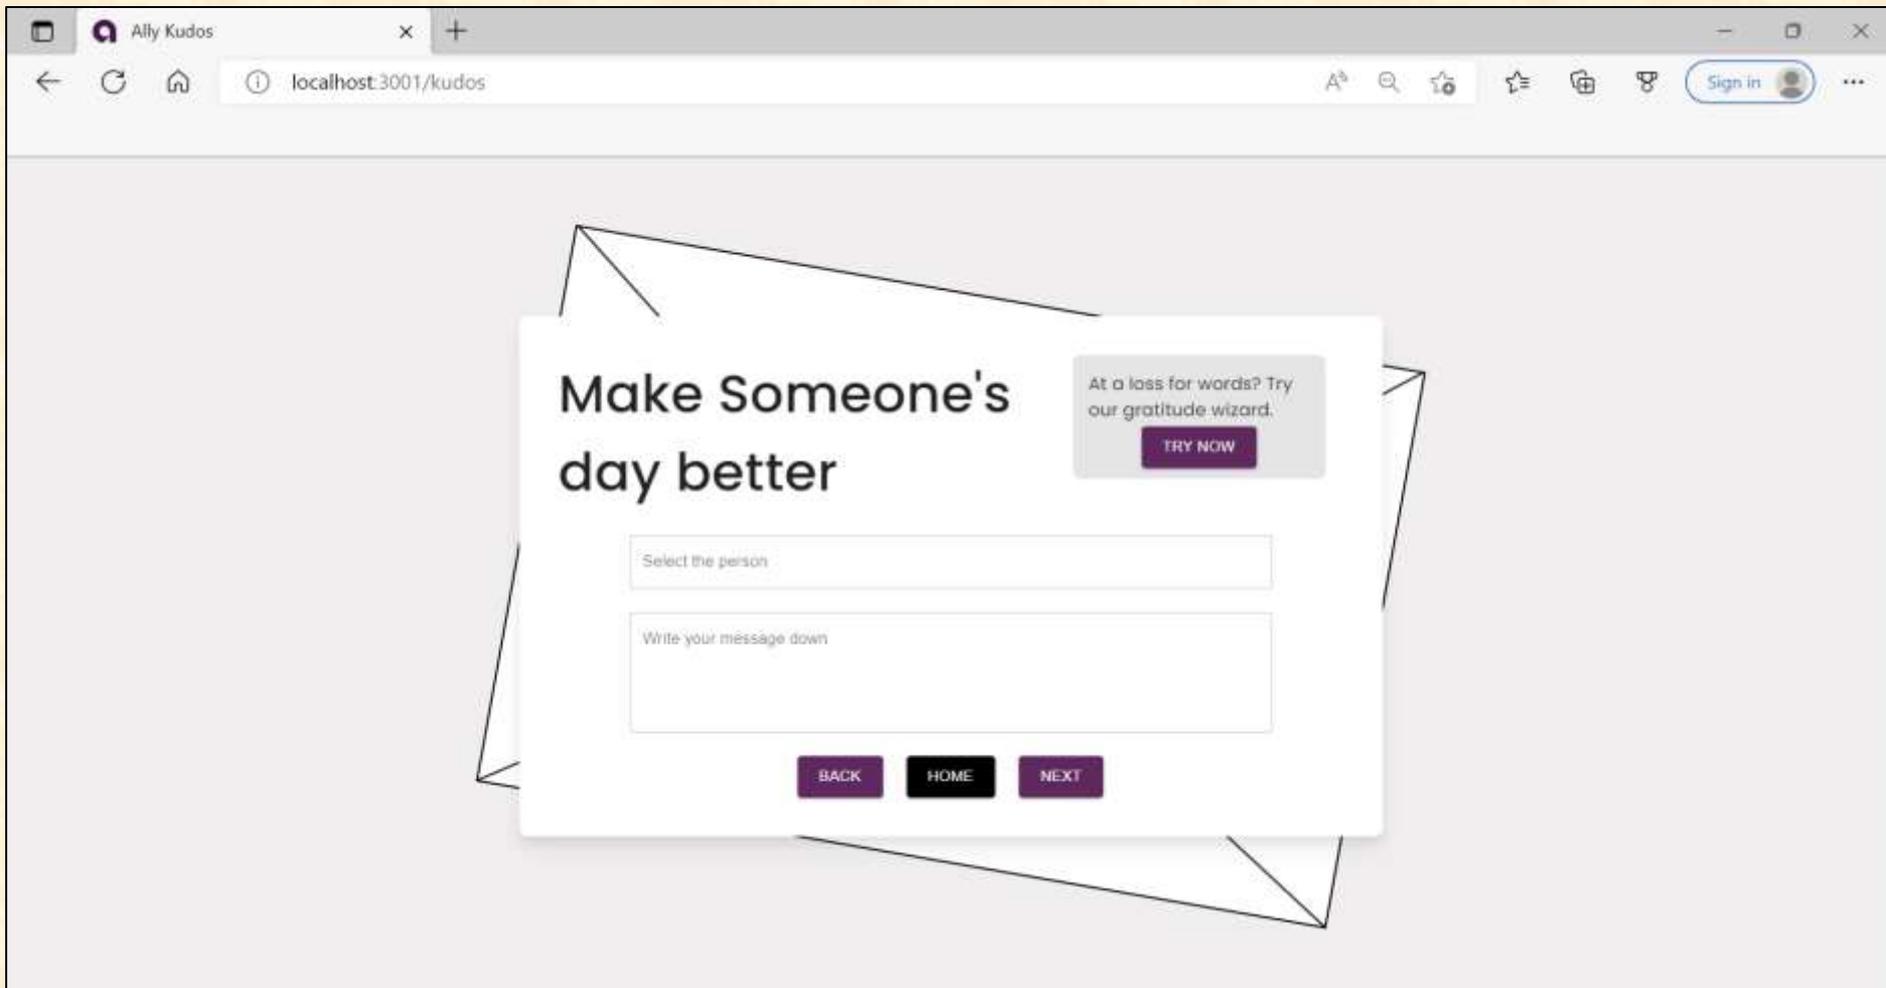

From: Sara
To: Chuck +100

Chuck, thanks for always being there! You brighten up the room!

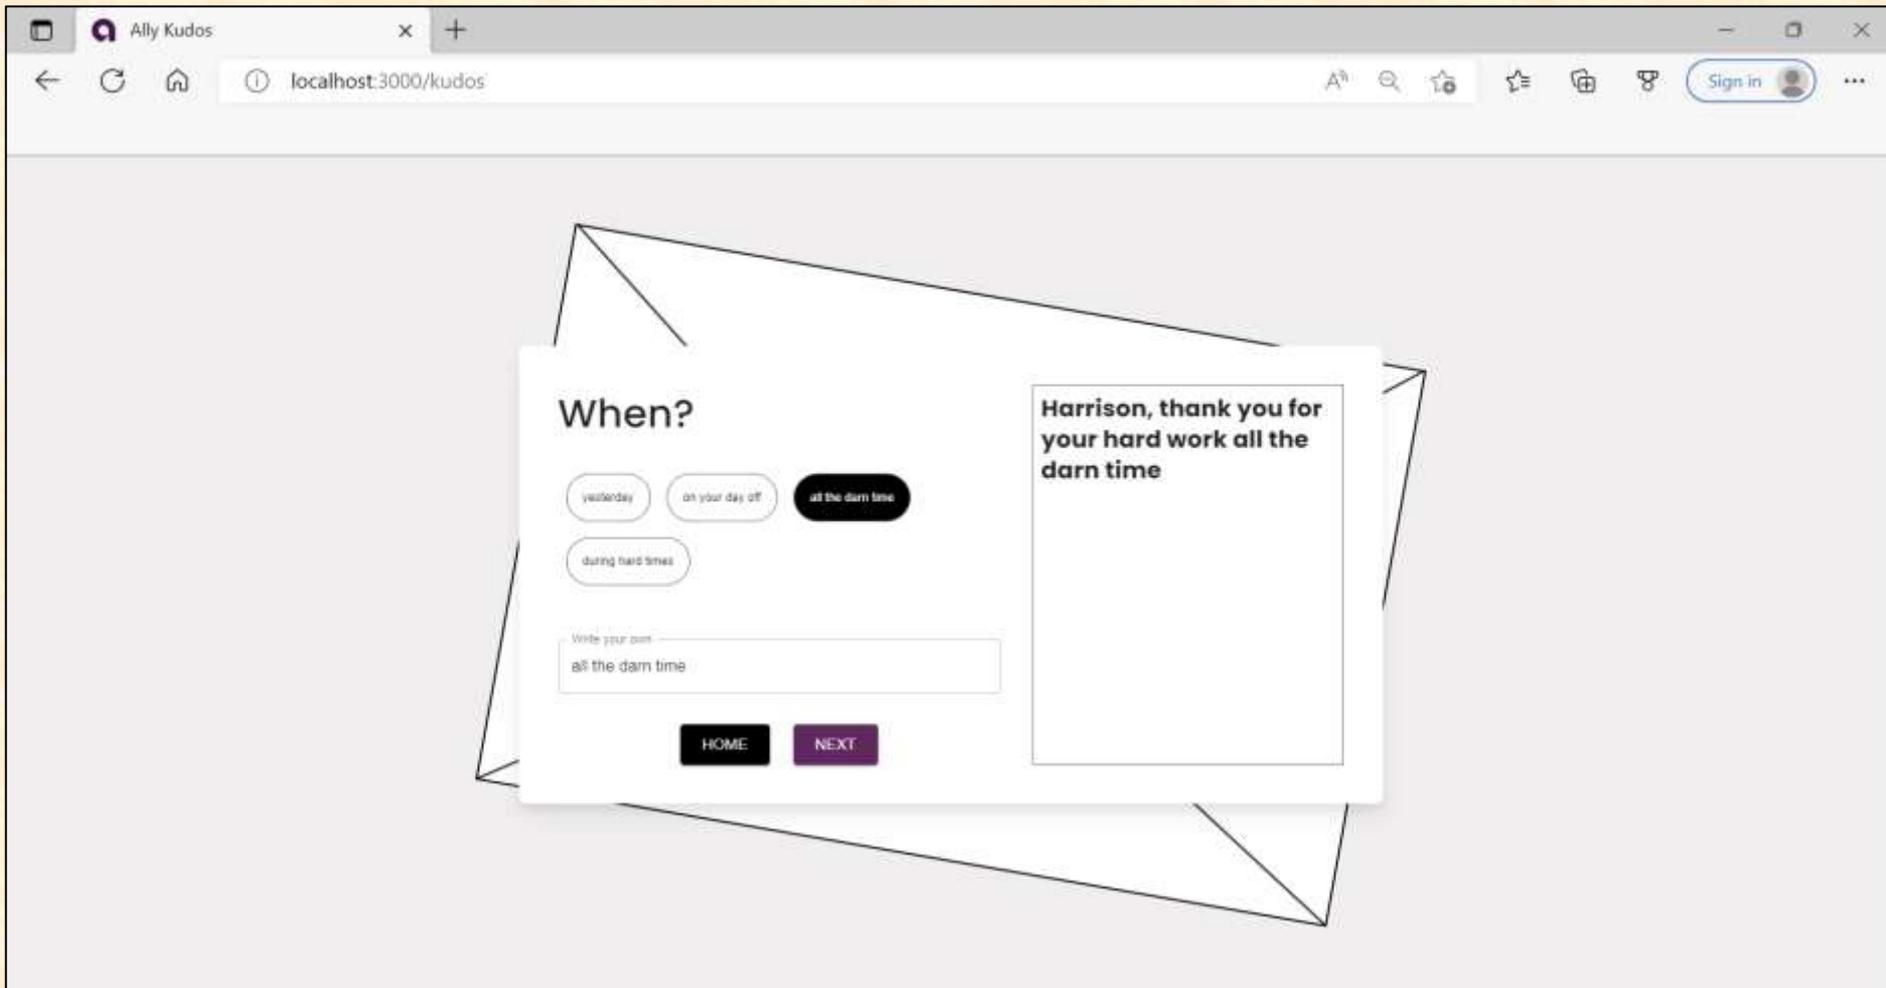

From: Sara
To: Suzy +225

Suzy, congrats on your engagement! we're thinking of you!

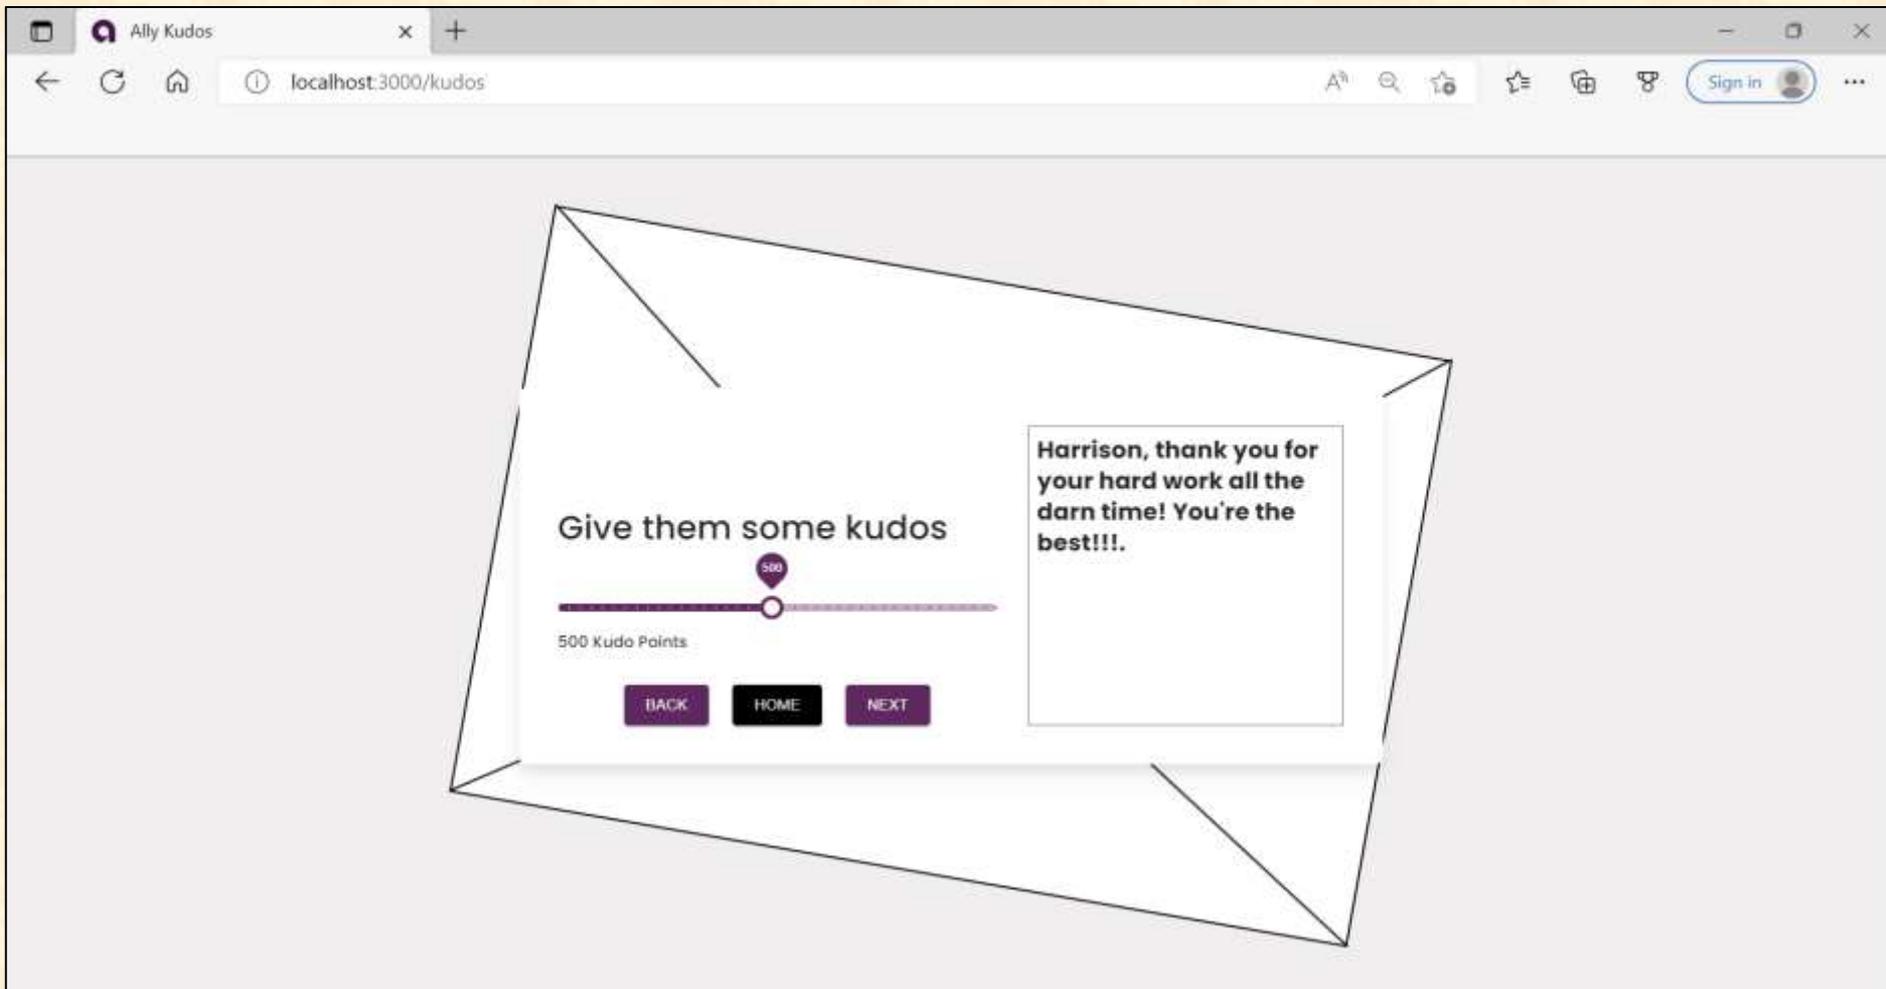

Composing a Message

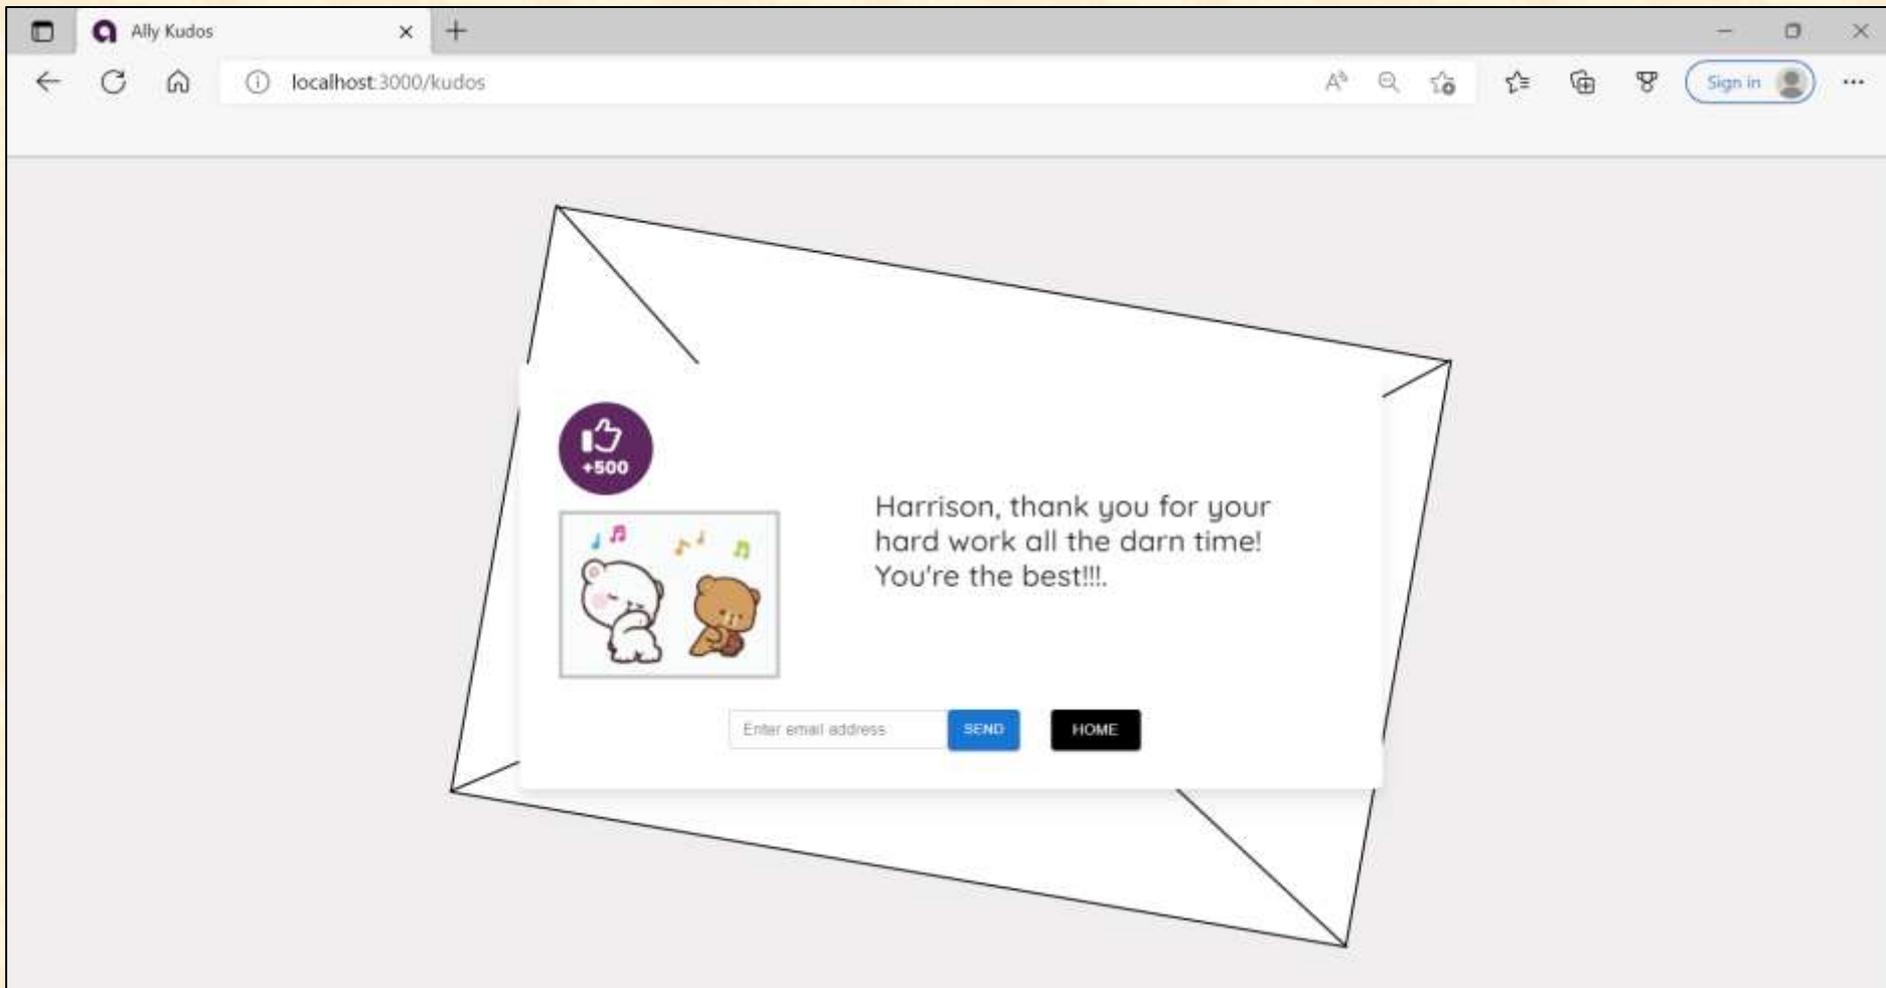

Gratitude Wizard

Choosing Kudos Points

Finished Message

What's left to do?

- Route components to backend
- User authentication
- Real-time notifications
- Integrate ML to web-app
- Admin/Manager view
- Stretch goals
