Department of Computer Science and Engineering Michigan State University

Fall 2022

From Students... ...to Professionals

Project Overview

- The problems:
 - Typical stovetop recipes are not one-size-fits all
 - Variances from kitchen-to-kitchen can cause hang-ups
 - Following a recipe on phone (or paper) is not the best experience
- A cooktop-integrated mobile app to improve user experience
 - Cooktop to phone integration with slew of expanded, intuitive controls
 - Eliminates guesswork through customized, calibrated step-by-step cooking process
 - Entirely hands-free recipe control through voice and gesture recognition
 - Easily-browsable gallery of Whirlpool-curated recipes

Project System Architecture

The Capstone Experience

What's left to do?

- NFC integration with iOS
- Recipe instruction functionality
- Voice and gesture recognition integration into main application
- Connecting our app to the induction cooktop
