Department of Computer Science and Engineering
Michigan State University
Spring 2024
Project Overview

• Evolutio struggles with finding a way to present key information to their stakeholders in an organized/timely manner.
• Team Evolutio has created a project reporting tool that allows consultants and clients to oversee projects and progress through status reports, progress timelines, and task overviews.
• Consultants and stakeholders alike are able to share key information through a dynamic exportation feature.
System Architecture

Evolutio Amazon Web Server

Kubernetes Cluster

Backend Technologies

- Node-Cron
- PostgreSQL

Frontend Technologies

- Next.js
- NextAuth.js
- okta

Asana API

What’s left to do?

• Features
  ▪ Feature complete!

• Stretch Goals
  ▪ Creating physical timeline in pdf format.
  ▪ Showing date of status updates.
  ▪ Recent project filtering.

• Other Tasks
  ▪ Deploy application to AWS.
  ▪ Cleaning up code.
Questions?
