Feedback

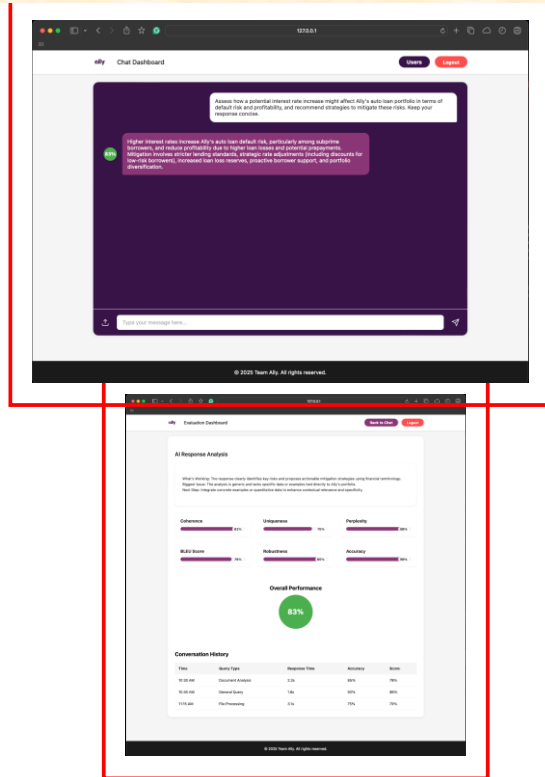

- Top Artwork
 - Minimize the empty blank space on either side. (That's not the way to "fill" whitespace.)
 - Add at least two more chat text interactions.
 - Add a border
- Too much whitespace.
- Add a third artwork to the bottom

Team Amazon Artwork Feedback (Griffin)

Original Artwork

Feedback

- The top artwork is blank! The fact that you may be able to update it later is not an excuse for providing nothing now. Redo the upper artwork with something interesting.
- Eliminate the whitespace from the lower artwork.
- Either add something to the lower artwork to eliminate the whitespace or add a third artwork.
- Either add borders or make your added borders thicker.

- Eliminate two of the artworks. Be sure to delete the eliminated png files and renumber the remaining ones.
- Redo the upper artwork so the bottoms of the candidate photos are visible with a white strip of your app below. Make the photo smaller. Add a border to your png file.

- Your middle artwork, now your top artwork, had a bit too much whitespace around it. I cropped it.
- I resized and repositioned your artwork a bit. Leave the layout as is.
- The borders of your artwork do not match. Redo them and add consistent borders.
