Roadmaps Page
Roadmaps Modal Page

- **Description**: The group will need to go through and develop all of the CSS files to make the visual friendly. Also, color code the project to the Quicken Loans Standard.

- **Dependencies**: Fix the Table

- **Risks**: The visualization needs to be readable by the recipients of the roadmaps.

- **Links**: [Add Link]
What’s left to do?

• Inserting Strategy Point / Business Value in any order
• Formatting and Visuals
• Fine tuning UI
• Implementing timeline
Why does this look like Gantt Chart?

• Only 5 people at Quicken Loans (the Enterprise Architecture team) will be using this
• They are most comfortable and familiar with this Gantt chart style
• Our client commented that this design most closely resembled the software currently available for this purpose
